EDUCATION

MS Ramaiah Institute of Technology, Bengaluru, <i>Bachelor of Engineering in Electronics and Instrumentation Engineering</i> Course works : Data Structures and Algorithms, Python Application Programming, Oops in Python, Database Management Systems ,Web development, Internet of Things. Programming Logic Circuit(PLC), LabVIEW.	2019 – Sep 2023 CGPA:7.5
RP PU COLLEGE, Hosadurga, Pre-University (PCMB)	Score:87%
GOVT JUNIOR High SCHOOL, Hosadurga, SSLC	Score:91%

INTERNSHIP

Tantragyaan Solutions, System Software developer Intern	Mar 2023 – Jun 2023
- Developed and implemented peripheral testing functionalities for UART, EEPROM, and SPI interfaces during the internship, including reading, writing, and erasing data and incorporating timestamp functionality for logging purposes. - Utilized file handling techniques to store and retrieve data from text files, ensuring efficient data management and facilitating easy access to test results and logs.	

PROJECTS

Movie Booking Application, <i>React, Node.js, CSS, JavaScript, REST API, MongoDB, ExpressJS</i> ✍	Aug 2023 – Sep 2023
- Engineered a MERN stack application with features like user authentication, authorization user profiles, and a booking history section where users can track their past bookings. - Created APIs and a structured database for movies and bookings, and allows admin to add, edit, and delete movie listings and booking details.	
EMBEDDED BASED 3D PRINTER ALONG ITS FEEDBACK PARAMETERS ANALYSIS	Jan 2023 – May 2023
- To use computer-aided manufacturing to print 3D models using customized design and microcontroller-based movement and flow control. - The Internet of Things was used to analyze safety-related physical parameters for accurate and precise printing.	
To-Do List App, NodeJs, ExpressJs, MongoDB ✍	Nov 2022
- Developed a dynamic To-Do List web app using Express.js and MongoDB, allowing users to efficiently manage tasks with features like item addition, deletion, and personalized lists. - Utilized EJS templates and Mongoose for real-time UI updates and database integration, demonstrating proficiency in full-stack development and user-centered design.	

SKILLS

Python	C	SQL	OOPS	DSA	HTML	CSS	JAVASCRIPT	GITHUB
Soft Skills (Adaptability, Leadership, Teamwork, Self Motivation, Focused)							Softwares (PLC, LabVIEW)	

INTERESTS & HOBBIES

Sports | listening to music | Creative writing | Video Editing

AWARDS AND CERTIFICATES

Student of the year award, 10th std
The Complete 2023 Web Development Bootcamp(Udemy)
The Complete Data Structures and Algorithms Course in Python(UDEMY)

ACTIVITIES

National Service Scheme(NSS), volunteer
Dept of Extra Co-Curricular Activities(DECCA) MSRIT, core member
